Education

Kalinga inst. Of Industrial Tech. University   Bhubaneshwar , Odisha
Bachelor of Technology, Mechanical Engineering   *Aug. 2016 – May 2020*

Experience

Software Engineer   December 2021 – Present
Tata Consultancy Services   Mumbai,MH

- Collaborated with UI/UX designers to translate design mockups into responsive web interfaces
- Demonstrated expertise in CSS/Tailwind preprocessors like SASS/SCSS for modular and maintainable styling. Developed pixel-perfect,responsive web applications using HTML5, CSS3, JavaScript and ReactJs.
- Developed reusable React components and integrated them seamlessly into larger applications.
- Integrated front-end interfaces with backend APIs, ensuring smooth data flow and real-time updates.
- Employed debugging tools like Chrome DevTools to identify and resolve frontend issues efficiently.
- Tested and optimized web applications for cross-browser compatibility, including Chrome, Firefox, Safari, and Edge.
- Utilized Git for version control, managing code branches, and facilitating collaboration among team members.
- Demonstrated adaptability by quickly learning and integrating new frameworks and tools into existing projects.

Projects

- GogiFood (a diet planning food website designed using HTML , CSS and JS)
- Bounce-Nokia Game (classic Nokia game Bounce designed for Tab using HTML,CSS and JS)
- Roll-Dice Game (Multiplayer game played by 2 people whoever scores 100 1st wins , with some twists)
- Planet-Seller page (Basic Ecommerce web page for selling 8 +1 planets with styling using Tailwind)
- Expense Tracker
- Signature APP
